Who is responsible for looking after wildlife? – January 2025

During a Picture News Worship session, the children were asked about who is responsible for looking after wildlife. They learnt that birds can find it difficult to find food during the winter months and the children said they wanted to do something to help. In Reception, the children put bird food around our school grounds. Then they watched and recorded which birds they saw. In Year 1 the children were also concerned about our wildlife so they decided to be part of the Big Schools' Birdwatch this year to help raise awareness of the importance of our wildlife.

'God is my strength, in whom I trust.' Psalm 18
